

They too lives with their dream

Dreams to be someone someday

But....

Their childhood is at risk, threatened by the daily struggle to secure enough food, enough shelter, enough medicine just to survive - with little or no access to health care and education.

But who hears the cries...?
 Who gives more than a passing glance...?
 Who cares to notice...?
But you have. Battles are never won alone.

Working for almost three decades, PECUC has reached over 3 million socially deprived individuals across the country and working for their development in the field of social welfare, health, protection and education.

In this long and successful journey we have worked together.

In this mission of MASOOM – Support a Child Programme, we are sure you will respond from your soul.

There is no fixed amount for donation, neither you need to pay any administration cost. Whatever you give, money or materials (pen, copy, book, pencil, eraser, scale, geometry box, test papers, school bag, water bottle, sports equipments, school uniform, etc.) will go direct to the children.

Your love, your care, is what we need to share... the battle is not over...

Boy from the rugged slum

studies in class X

solves almost every sum

wants to become a mathematician

dose not even have a copy to write

Their childhood is at risk, threatened by the daily struggle to secure enough food, enough shelter, enough medicine just to survive - with little or no access to health care and education.

Girl from the remote village

sings like an angel

very good at studies

wants to become a teacher

walks 3 kilometers daily to attend the school

Their childhood is at risk, threatened by the daily struggle to secure enough food, enough shelter, enough medicine just to survive - with little or no access to health care and education.

But who hears the cries...?
Who gives more than a passing glance...?
Who cares to notice...?
But you have. Battles are never won alone.

most of these students come from under privileged part of the society

very attentive and regular at school

lives with high aspiration

But with no support...

Their childhood is at risk, threatened by the daily struggle to secure enough food, enough shelter, enough medicine just to survive - with little or no access to health care and education.
